PROFILE

I'm a senior frontend developer with ~6 years of experience across web and mobile — frontend & mobile first, with reach into the backend. I bring multi-agent AI development into real production. Over the past years I've been building mobile and web banking apps (OTP Group, a Dubai-based bank – DIB) while building and continuously refining a sophisticated setup of AI agents, skills and MCP tools that speeds up the whole team. I have experience leading people as a tech lead and building processes that keep up both quality and delivery pace.

EXPERIENCE

Senior Developer

3/2026 – present

Internet banking · OTP Group · Favorlogic / Finshape

- Building and continuously improving a multi-agent development setup — custom AI agents and skills, MCP integrations, and agent orchestration embedded directly in the development process
- Bringing state-of-the-art AI approaches into real production and spreading them across the team
- Developing a mobile banking app in React Native + Expo + Tamagui for iOS and Android
- Running AI-assisted code reviews and tuning performance for both iOS and Android

Senior Developer

12/2025 – 2/2026

Internet banking · Dubai-based bank (DIB) · Favorlogic / Finshape

- Contributed to analysis and solution design for a multi-platform banking app (iOS, Android, web)
- Implemented the RTL interface (Arabic)
- Built complex animations with Lottie and Skia
- Handled AI engineering and code reviews

Developer → Lead & Tech Lead

6/2021 – 11/2025

Projects for ČMSCH · Favorlogic · tech lead since 8/2022

- Led a team of 2–5 developers: assigned tasks, advised on priorities, and communicated directly with the client
- Owned 4 web and 3 mobile projects + 3 in-house libraries
- Designed and reworked architecture and the technology stack
- Optimized builds with Webpack (speed and size)
- Set up processes: git flow, CI/CD (BitBucket pipelines), Sentry monitoring, testing infrastructure (Jest, Cypress), and AI tooling rollout
